

# Stimulant Side Effect Monitoring Scale

**Instructions:** Each symptom listed should be scored before the medications are begun and then, for each successive rating, using the next digit (e.g., baseline = 0, first rating = 1, second rating = 2 etc.). Use the same sheet to track symptoms over time.

## EXAMPLE:

Symptom	Not at all	Sometimes	Often	All the time
Loss of appetite	0	2	1	

Name (or Initials): \_\_\_\_\_ Age: \_\_\_\_\_ Grade: \_\_\_\_\_

Baseline Date (Assign number 0): \_\_\_\_\_

Symptom	Not at all	Sometimes	Often	All the time
